"I'm a provider at Aslan because I enjoy being part of a like-minded community of healers who are deeply committed to the evolution of consciousness. Aslan reminds me to be the best person I can be in the world, to show up fully and honestly in all of my relationships, to pursue additional education in my work, and to live the shared vision of engaged compassion."

I am grateful for this wonderful group of Aslan practitioners who are open rather than guarded, reflective rather than controlling, and accepting of imperfection rather than demanding perfection."

"Joining the Aslan community provided me with the support and camaraderie that I didn't know I was missing!"

We are a community of independent providers working inter-dependently with a shared vision. Our mission is to promote healing, growth, and greater awareness. We are looking for licensed professionals in private practice with a mind-body-spirit focus who are committed to their own personal growth to join our team: psychologists, integrative psychiatrists, psychoanalysts, psychotherapists, social workers, massage therapists, acupuncturists, etc.

INTEGRATIVE THERAPY & COUNSELING

Develop and grow: We offer individual, family and couples therapy, including psychodynamic, gestalt, IFS, sensorimotor and cognitive behavioral therapies. Our clinicians nurture personal responsibility and self-empowerment through an integrative approach to the inner journey of self-development and healing.

BODYWORK & HEALING

Relax and heal: Nutrition, herbal medicine, Qigong, Reiki, healing touch, massage, yoga and exercise are combined to prevent disease, promote wellness, support your own healing ability, and take charge of your well-being.

WORKSHOPS, TRAININGS, SUPPORT GROUPS

Attend and learn: A wide variety of workshops about the Evolution of Consciousness, health and wellness, couples communication skills, nonviolent communication, anger and intimacy, empathy work, parenting and relationship issues. Check the events page on our website for a listing of evening and weekend workshops to ongoing practice groups and short term courses.

INTEGRATIVE SPIRITUALITY & MEDITATION

Transcend and include: We promote the exploration of transpersonal growth and spirituality from an integrative paradigm, seeking awareness, enlightenment and community in the way that is best suited to your needs. Join us for a meditation class, Tonglen group or a workshop on transcending the ego and nurturing the soul.
